The 2012-13 Assessment Report for BS- Industrial Technology is missing in part for the following reasons:

- The previous coordinator of the program is no longer working at CWU.
- Due to new faculty, data was unable to be obtained for current outcomes for the review period.
- The program is currently under revision and is not yet completely revised or approved. A current model of the revision is attached.
- Once the revision is completed, it will take at least one to two years to obtain meaningful data, depending on course offerings and outcomes.

If you need further information please let me know specific information needed and I'll do my best to provide it.
