1. **What student learning outcomes were assessed this year, and why?**

The program was in the process of revising student learning outcomes during the 2013/14 academic year. Unfortunately, we lost our one dedicated management faculty member last year (stayed for one quarter), and haven’t been able to replace him. We were to develop strategic assessment strategies once that person was in place. As it stands now, we haven’t done that so we don’t have adequate assessment strategies in place to report much of anything.

We are currently in the process of extending an offer to a Dept. Chair candidate who has substantial aviation management and program outcomes and assessment background. With his help, we should be able to implement strategies to help us with that.

2. **How were they assessed?**

N/A

3. **What was learned?** The following tables show stated criteria and goals for each criterion.

N/A

4. **What will the department or program do as a result of that information?**

N/A

5. **What did the department or program do in response to last year’s assessment information?**

N/A
