Central Washington University

Code

Each version of the vision and mission statements is broken into two sections: one section counting the total number of groups that liked certain words or phrases and one section counting the total number of groups that did not like certain words or phrases. Additionally, if groups did not mark on that version at all, a notation is added: “No comments” under the “did not like section.

Numbers next to phrases indicate how many groups selected that word or phrase. For example:

Building - 2

Means that 2 groups selected the phrase “Building”
of excellence - 6

Means that 6 groups selected “of excellence”

Words and phrases highlighted in yellow and then followed by underlined words or phrases mean that the entire phrase was selected AND certain words or phrases within that longer phrase were selected. For example:

advances diversity and a culture of belonging - 1

diversity - 9

culture of belonging - 15

Means that “advances diversity and a culture of belonging” was selected by 1 group AND “diversity” was selected by an additional 9 groups and “culture of belonging” was selected by an additional 15 groups.

Numbers highlighted in green indicate words or phrases that had 10 or more groups selecting that word or phrase.
