Hi there! This electronic enrollment override process will allow the faculty member of the course to input overrides for requisites, closed course, career restriction, and permission requirements for a particular student through MyCWU. Once permissions are added, the student must then follow up by enrolling into the course via MyCWU.
Enter the student's ID in the appropriate box. If you are unsure of the student's ID number, select the magnifying glass to search by name. If you need to add an additional line to input permissions for multiple students, select the + icon to add an additional row. Faculty may select which item should be overridden for the student by selecting or unselecting the appropriate check boxes. Definitions for each override are listed below. Save by pressing the Save button.

Please note that if the box is checked, the restriction will be overridden. If the box is unchecked, the restriction will be enforced and not overridden. Please be advised that all boxes are checked by default.
