Advisory	Not available at CWU; must meet requirement at high school	Not available at CWU; must meet requirement at high school

Courses meeting high school graduation requirements may not meet University Entrance Requirements. Check with individual universities requirements.

A single course may not be used to satisfy a credit requirement for more than one subject.

SBLSD and Central Washington University Running Start Transfer Guide

1 or 2 college credits = .25 high school credit. 3 college credits = .5 high school credit. 5 college credit classes = 1.0 high school credit

****Graduation requirements include two lab sciences and one lab or non-lab science (three science credits total for the Class of 2021 and beyond). For students to be prepared for the state science assessment, courses should address Life Sciences (biology), Physical Science (chemistry/physics), Earth and Space, and Engineering.**
