

BACHELOR OF ARTS

Sociology

Sociology—Large plan 60 credit major

The *SOCIOLOGY Large Plan*

Major provides many distinctive perspectives on the world, generating new ideas and critiquing the old. Sociology addresses the most challenging issues of our time, and is a rapidly expanding field whose potential is increasingly tapped by those who craft policies and create programs. Sociologists understand social inequality, patterns of behavior, forces for social change and resistance, and how social systems work. Sociology is an exciting discipline with expanding opportunities for a wide range of career paths and is a valuable liberal arts major for students planning careers in a wide variety of fields including social research, criminology, demography, social psychology, public administration, gerontology, education, rehabilitation, social work, and market research. It provides a useful background for those planning to enter law, business, medicine, community planning, architecture, and politics. In many professional schools, sociology courses are part of the requirements.

(American Sociological Association)

Course of Study
60 Total Credits
