SEOI Advertisement Committee

Hauke: Faculty Senate is swamped right now and we have not heard back from them. We were also supposed to have some bylaw revisions but we will pass those off to Ryan.

Student Academic Rights and Responsibilities Committee

Biology: I was gone last week, I am sorry. I had something to vote on last week but did not submit it. I have a document but will continue working on it over the summer.

Ryan: I have the document and want it to be a standing committee for next year.

SAS Retention and Recruitment Committee

DHC: In Executive Board we talked about that the next year Executive Board will have those in their colleges elaborate and have departments report back to their representative Executive Board member. Also, those will be the people that fill those committees for the Executive Board.

We went to the Child Life Conference in Florida. We had four graduate students and seven undergraduates attend it. We got a lot of new contacts and networked with a lot of different people as this was one of the first conferences our department has attended due to it being so new. This was a great opportunity for our department to grow and learn more about the field and brought back a lot of new contacts and newly published information.
